SYNTHETICS PLUS

Makes painting twice as fun!

The *Plus* for **SUCCESSFUL PAINTING**

The advantages of synthetic hair:

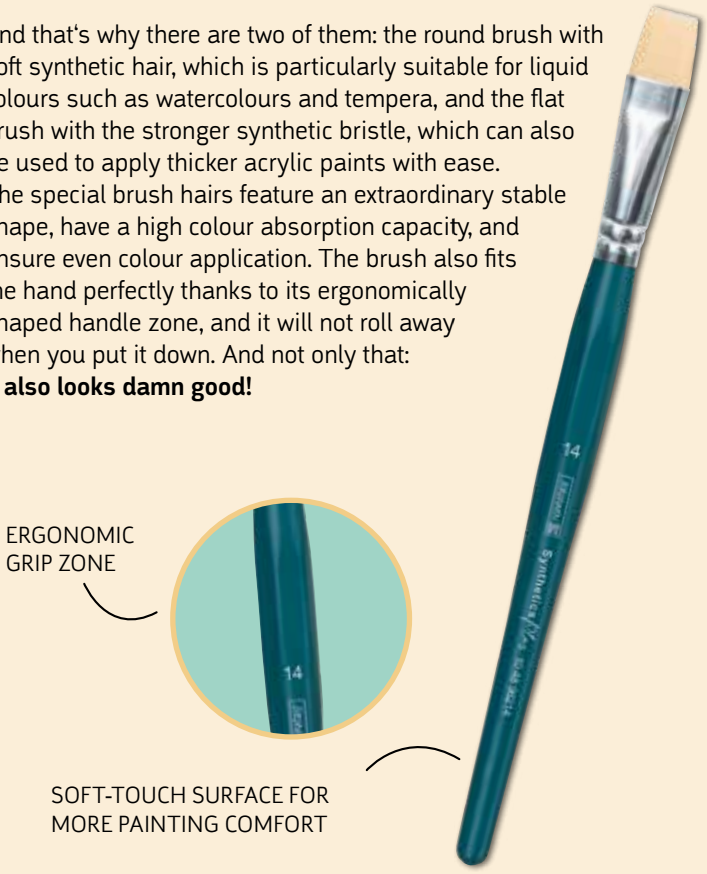

- high colour absorption
- even colour application
- extraordinarily stable in shape
- no hair loss
- robust and durable

Information on our brush display on page 10

Whether in art classes or at home - painting is twice as fun with these brushes!

And that‘s why there are two of them: the round brush with soft synthetic hair, which is particularly suitable for liquid colours such as watercolours and tempera, and the flat brush with the stronger synthetic bristle, which can also be used to apply thicker acrylic paints with ease.
The special brush hairs feature an extraordinary stable shape, have a high colour absorption capacity, and ensure even colour application. The brush also fits the hand perfectly thanks to its ergonomically shaped handle zone, and it will not roll away when you put it down. And not only that:
it also looks damn good!

WATERCOLOUR PADS

In two Sizes

new

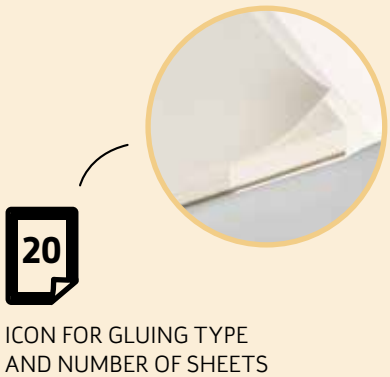

A breath of fresh air in the BRUNNEN creative world

We're adding to our popular range of painting and drawing pads! Two new watercolour pads, available in both A4 and A3 formats, are now joining the range.

Whether you're a beginner or a hobby artist – the natural white, dimensionally stable watercolour paper has a weight of 300 gsm and offers an ideal surface for the most popular watercolour techniques thanks to its rough texture.

The product information is once again designed to be particularly user-friendly: paper quality, sheet count and binding method are clearly presented using symbols and explanatory notes – as with our drawing pads.

Expertise meets fresh design

A tried and tested product range – newly revised

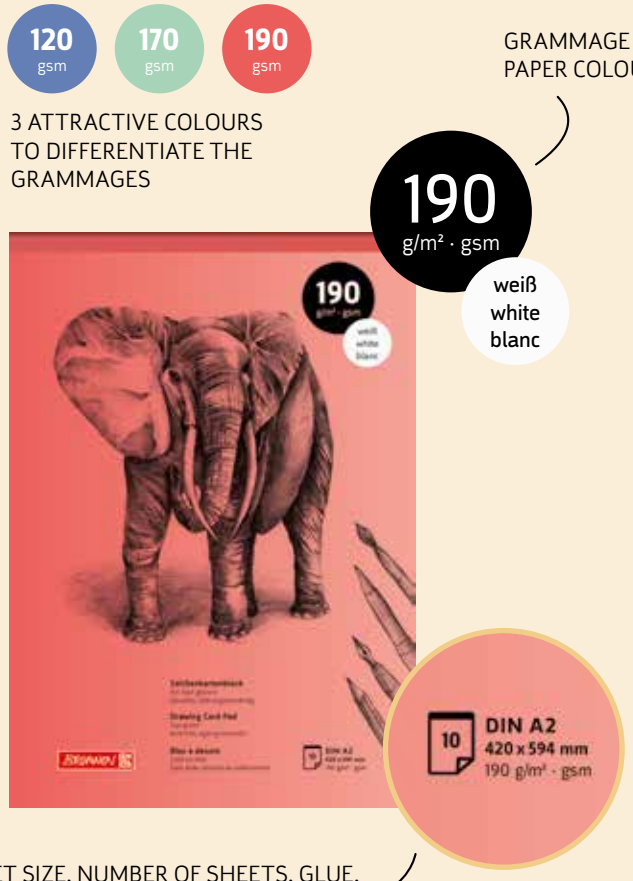

BRUNNEN - the paper industry specialist of many years - has expanded another attractive member of the BRUNNEN pad family by improving its high-quality drawing pads.

Particular emphasis was placed on the immediate recognisability of the different grammages/series. They can now be identified at a glance thanks to the clear cover sheet colour coding. In addition, the hand-drawn cover motifs immediately make them recognisable as drawing pads. All other important information, such as paper quality, number of sheets, sizing etc., is shown by a mix of symbols and descriptions.

The range also offers a wide selection of folders in various styles, designs and materials for transporting and storing drawings and paintings.

CHILDREN'S APRONS

Keep them clean

For **PAINTING, CRAFTING, BAKING AND COOKING**

Children's aprons - companions in many creative adventures

Whether painting, crafting, baking or cooking - the happily coloured children's aprons make creative activities even more fun and reliably protect clothing from stains thanks to their water-repellent fabric. Some models feature quick-opening buckles, others hook and loop fasteners. And putting them on and taking them off is a cinch, too. To make sure that aprons are not mixed up, there are name tags attached on the back for labelling.
